BMI Explores Modern Maryland Commerce with *Industry Today* Lecture Series
Discussions examine how local businesses meet today's demands and opportunities

BALTIMORE, MARYLAND – On September 24, 2016 the Baltimore Museum of Industry will launch *Industry Today*, a series of lectures exploring how local businesses meet today's changing economic and technological demands and opportunities.

Programs range from the exploration of how the recipe for success has changed for local food manufacturers, to how a fifth generation furniture maker keeps up with changing times. Programs will offer ample time for community members to ask questions, provide insight and promote a dialogue about the area's evolving industrial landscape.

All events will be held at the Baltimore Museum of Industry and are open to the public. Several are free of charge; others are included with regular museum admission. The schedule for the series is as follows:

MANUFACTURING A FUTURE

Learn about the reinvention of a fifth-generation business. David Beachley successfully led Beachley Furniture Company in a new direction.
