

Industry Investigators **Post-Visit Information**

Classroom Resources: Post-Visit

1. [Virtual walk-through program](#): Return to the virtual tour to check out additional spaces in the museum. Revisit the galleries on the tour to start a discussion using the questions below.
2. [Student Youtube Playlist](#): After your experience, reinforce the information covered on the tour by watching these short videos on the industries covered during the tour.
3. Visit our [Activities From Home](#) page for more activities for your students that pair well with the information covered during the *Industry Investigators* program.
4. [Industry Investigator Google Slides Activity](#): If your students did not use the activity packet during the tour, this Google Slide version can be used as a post-visit activity to reinforce the information covered on the tour.
5. Follow up the tour experience with a virtual [Escape Room activity](#) using Google Forms featuring the Cannery exhibit. Pair with the [virtual walk-through program](#) to complete.

Classroom Discussion & Activity: Post-Visit

1. Write a letter to your museum educator at the BMI reflecting on your experience of the guided tour and what you learned using the prompts below as inspiration:
 - a. 100 years ago, there were hundreds of factories in Baltimore, but today there are only a few. Why do you think most of the factories have closed?
 - b. What types of machines do you think are used in today's factories? How are they different from the machines you saw on your tour?
 - c. Of the jobs you learned about on tour, which would you like to have, and which would you not like doing? Which jobs would workers have wanted 100 years ago? Which would they have disliked?
