

### Fueling the Automobile Age

Explore how two local oil companies helped fuel America's automobile age.

### Garment Loft

Tour a circa-1929 garment loft similar to those once key to Baltimore's industrial development.

### Print Shop

See a working 1936 Linotype machine and vintage printing presses.

### Communications Gallery

Find out how telecommunications have changed from the time of the telegraph to the age of the smartphone.

### Fire & Shadow

Explore the story of Baltimore's Sparrows Point steel mill, once the world's largest producer of the world's most important product.

### Maryland Milestones

Learn about innovations and firsts in Maryland industry.

### Machine Shop & Forge

Feel the heat of the forge and the vibration of a belt driven machine shop.

**Platt Cannery**  
Walk through Baltimore's last surviving oyster cannery building.

### Food Processing

Explore the history behind some of Baltimore's most famous foods.

**Pharmacy**  
Step into a 1910 pharmacy, like the one where world-famous Noxzema skin cream was invented.

EV Charging

### Food for Thought

Explores the issue of food insecurity in Baltimore and spotlights school food service workers through portraits, audio recordings, and hands-on activities.

### Decker Gallery

Stand beneath the 1937 Mini-Mariner, the flying prototype of a WWII PBM flying boat bomber, restored by some of the same Baltimore-area workers that built it.
